

**Request for Proposals (RFP) For
Master Meter Engineering Services**

Pre-Submission Meeting Questions and Answers

May 29, 2019

Q:	Are you looking for recommendations for Capital Improve Project or meter condition assessment?
A:	Its site specific. Cascade would need to work with our members to determine what we need the consultant to evaluate
Q:	Do you also expect the consultant to do cost estimate in addition to what was on the scope?
A:	Yes, cost estimating is expected when needed
Q:	Is your SCADA system ready if meter vault have telemetry
A:	Cascade does not have its own SCADA for in-town meters. Existing meters that have SCADA belongs to the member
Q:	Will your counsel be closely involved in this as other past matters
A:	If there are exceptions to whats already adopted, counsel will be more engaged. Counsel will be engaged in preparing transfer and authorization documents
Q:	Is there franchisee agreements between Cascade and I where the meter is getting transferred to Cascade?
A:	We don't anticipate franchise agreement is needed but need to confirm with our members
