## **I. ANNOUNCEMENT OF REQUEST FOR QUALIFICATION**

Cascade Water Alliance (“Cascade”) is soliciting Statements of Qualification (“SOQ”) for on-call civil, structural, and mechanical engineering services. Proposers must demonstrate experience and satisfactory performance with engagements of similar scope by key personnel assigned.

This Request for Qualification (“RFQ”) process is being performed to assure that Cascade obtains the services of one or more engineering firms in the most effective and efficient manner.

The availability of this RFQ was advertised on October 19, 2022 in the *Tacoma News Tribune* and in the *Daily Journal of Commerce*. The RFQ and any related documents are also available at Cascade’s website, [www.cascadewater.org](http://www.cascadewater.org).

### **A. Description of Cascade Water Alliance**

Cascade is a municipal corporation organized under the authority of the Joint Municipal Utilities Services Act, chapter 39.106 of the Revised Code of Washington to provide wholesale water supply to meet the current and future water supply needs of its Members.

- **Members:** Members include the following:
  - City of Bellevue
  - City of Issaquah
  - City of Kirkland
  - City of Redmond
  - City of Tukwila
  - Sammamish Plateau Water
  - Skyway Water and Sewer District
- **Governance:** Cascade is governed by a Board of Directors represented by each of its Members. All Board Members are elected officials of their respective Member organization. Day-to-day management is provided by Cascade’s Chief Executive Officer.
- **Water Supplies and Facilities:** Cascade currently utilizes a combination of local groundwater supplies owned and operated by its Members and regional water supplies. Cascade operates and maintains certain infrastructure on behalf of its Members (e.g. the Bellevue Issaquah Pipeline, wholesale master meters). In addition, Cascade has wholesale water contracts with the City of Seattle and the City of Tacoma, as well as ownership of the White River/Lake Tapps Reservoir Project purchased from Puget Sound Energy in 2009 (“Project”). The Project, constructed in 1911, consists of facilities once utilized in hydro-power generation

via water diverted from the White River near the town of Buckley, Washington. The Project is comprised of the Lake Tapps Reservoir, as well as numerous dikes, inlets, fish screens, a diversion dam and approximately 7.5 miles of pipes, flume and canal.

## **B. *Background***

Cascade relies on the services of consultants to supplement its limited staff. There are a variety of miscellaneous surveying services that Cascade requires on an ongoing basis, often with quick turn-around times. This RFQ is for the purpose of selecting a firm to provide On-Call Land Surveying Services. Cascade and the selected firm will sign an on-call contract with a general scope of work, a contract maximum, and an agreed upon schedule of hourly rates to be paid on a time spent basis plus reimbursement for direct non-salary expenses, that would be used for negotiating Task Orders as specific assignments arise. Cascade makes no guarantees as to the amount of work that may be performed under the contract to be executed based on this RFQ.

## **C. *Scope of Work***

Cascade intends to select one firm based on this RFQ process to perform a variety of on-call land surveying tasks at Cascade Properties, as may be assigned by Cascade, including, but not limited to, the following:

1. Boundary surveying services, including property lines, boundary line adjustments, easement descriptions, etc.
2. Topographic surveying services, including dike elevations.
3. Bathymetric surveying services.
4. Utility locates.
5. Preparation of drawings and or maps to support Cascade projects and to fulfill State and local government real estate filing and recording requirements.
6. Other work as may be assigned.

The successful firm will work primarily under the management of Cascade's Capital Projects and Engineering Director.

## **II. SUBMITTAL AND EVALUATION PROCESS**

Each Proposer's SOQ must be organized by discrete sections corresponding to the evaluation criteria and in the order listed below, and must include an index to assist Cascade in reviewing all SOQs received. Proposers are further advised that lengthy or wordy submissions are not necessary (30 page maximum plus cover letter). Nevertheless, SOQs that do not respond completely or sufficiently to the evaluation criteria in this RFQ may be rejected as non-responsive, or will receive correspondingly

lower scores for those criteria, which may result in the SOQ not scoring high enough to be considered further.
