1.	CA	LL TO ORDER	raye
2.	RO	DLL CALL	
3.	PU	BLIC COMMENT	
4.	EX	ECUTIVE SESSION	
5.	AP	PROVAL OF AGENDA	
6.	СН	IEF EXECUTIVE OFFICER'S REPORT	<u>3</u>
7.	СО	NSENT ITEMS	
	a.	Board Meeting Minutes for July 26, 2023.	<u>15</u>
	b.	Motion to authorize the Chief Executive Officer to execute a contract with Herrera Environmental Consultants, Inc. to develop a Water Quality Management Plan in an amount not to exceed \$165,000.	<u>19</u>
8.	ОТ	HER ACTION ITEMS	
	a.	Motion to adopt Resolution No. 2023-12 authorizing Cascade's Acting Chief Executive Officer to continue activation of the Cascade Shortage Management Plan at the Voluntary stage of curtailment, to take additional action, in consultation with the Water Shortage Management Committee, pursuant to the Cascade Shortage Management Plan, and to report on such action at the next Board meeting following such action.	<u>21</u>
9.	ST	AFF PRESENTATIONS	
	a.	Seattle and Tacoma Contract Negotiations Status Update – no materials in packet.	
10.	СО	MMITTEE REPORTS	
	a.	Executive Committee – no meeting held.	
	b.	Finance and Management Committee – September 19, 2023.	<u>25</u>
	C.	Public Affairs Committee – September 6, 2023.	<u>27</u>
	d.	Resource Management Committee – September 14, 2023.	<u>29</u>

- 11. NEW BUSINESS
- 12. NEXT REGULAR MEETING October 25, 2023 Cascade Office or Via Zoom Meeting 3:30 p.m.
- 13. ADJOURN

NOTE: AS ALLOWED BY STATE LAW, THE BOARD OF DIRECTORS MAY ADD AND TAKE ACTION ON ITEMS NOT LISTED ON THE AGENDA.

MEMORANDUM

DATE: September 27, 2023

TO: Penny Sweet, Chair

**Board of Directors** 

FROM: Chuck Clarke, Acting Chief Executive Officer

SUBJECT: Chief Executive Officer's Report

#### Administration, Finance, and Economics

- Regional Capital Facilities Charges (RCFCs) are still off pace from the 2023 budget expectations. There have been 617.5 net RCFCs reported through August, with one member report missing. At this rate, Cascade will not meet the 2023 budget expectation of 1,300.
- In September, Clark Nuber, Cascade's outside auditing firm, is conducting a review of the second quarter of Cascade's 2023 financial transactions. The results of the agreedupon procedures will be reported to the Finance and Management Committee later this year. Clark Nuber will conduct a review of the third quarter in November.
- Cascade met with BrightNight in August and was given an update on the status of their battery storage project. If their project continues as scheduled, construction could begin in late 2024. Cascade granted BrightNight a transmission easement last year and, per the terms of the agreement, upon commencement of construction, Cascade would receive \$1.18 million. BrightNight has asked Cascade for site access so that their engineers can perform various studies.
- In August, the demolition of Cascade's Ford property was completed, and the garbage
  piles in Cascade's adjacent Noonan property were picked up. Cascade is exploring ways
  to prevent future issues in this area. Cascade purchased the Ford property in 2009 along
  with several other properties (including Noonan) and easements along a potential future
  pipeline route. The proposed pipeline route goes through the house. Cascade leased the
  house until the septic system failed.

- TeamLogicIT, Cascade's IT consultant, completed an upgrade of Cascade's servers in September. Fiber and firewall upgrades and a penetration test are in process for later this year.
- In August, Cascade applied and was granted a mini grant by the Association of Washington Cities for its Wellness program and used it to put on a demonstration of how to make healthy salads. Cascade's wellness program has been recognized with a WellCity award since 2018. The WellCity designation saves Cascade 2% on health insurance costs.

#### **Capital Projects and Operations**

- Lake Tapps Reservoir level is 542.20' as of September 19. Cascade seeks to maintain an optimal summer recreational level of 542.5' to 542.65', and this is slightly below the optimal range but is above the minimum recreation level of 541.5'. The major contributing factor to the low water level in the river is due to lower-than-usual spring and summer rainfall and early snow melt.
- United States Geological Survey (USGS), United States Army Corp of Engineers (USACE) and Cascade staff met on September 15 to share information on interconnected operations and using USGS's river gauging system. USGS's White River flow measurements, USACE's new Barrier Structure and Fish Haul and Trap Facility Operations, and Cascade's White River Diversion Operations are closely tied together. The outcome of the successful meeting was an agreed-upon list of improvements that can be evaluated further.
- Cascade staff met with the City of Sumner's design consultant and discussed potential
  design changes as part of BNSF reconsidering the scope of its train track expansion. If
  BNSF decides to change the scope or pull out of the project entirely, it could impact
  Sumner's project, the real estate transactions, and the consideration that Cascade
  expects to receive as part of the agreements to transfer property. The preliminary
  analysis is that there will be minimal to no impact to Cascade's original requirements
  resulting from Sumner's redesign.
- Veolia management notified Cascade that it hired Brett Kelly as its new Project Manager to replace the retired Project Manager, Gerald Smart. Cascade is working with Veolia to onboard Brett Kelly.
- Cascade staff commented on a City of Buckley Mitigated Determination of Non-Significance (MDNS) on a major residential and commercial development in the City of Buckley that drains water into a new regional storm water pond located in Pierce County. The proposed pond will then drain into Wickersham Basin and into Cascade's flowline. Cascade's comments are centered around water quality protection. Following the comment period, the City of Buckley withdrew its MDNS and met with Cascade and the developer to resolve issues identified by Cascade. Cascade is working with the developer, the City of Buckley and Pierce County to resolve Cascade's comments as quickly as possible.
- Cascade has experienced an increase in trespassing activities around Cascade-owned parcels along the White River-Lake Tapps Project. Cascade and Veolia are working diligently to resolve these issues.
- Cascade has issued a notice-to-proceed to replace the Valve House Hydraulic Power Unit and final construction is expected to be completed in approximately six months due to a long lead time for the equipment.

• The fish screen has several pieces of mechanical and electrical equipment that demonstrated signs of impending failure or have failed. Cascade is working with its consultant, RH2, to investigate and come up with a repair/replacement plan.

#### Water Efficiency

- The fall Cascade Gardener class schedule is confirmed and was launched in early September. This fall's lineup will include garden walking tours, workshops, and events at local nurseries in addition to remote learning classes.
- Cascade's partner, Tilth Alliance, has been involved in many drip irrigation and planting projects this summer at Riverton Park (Tukwila), McAuliffe Park (Kirkland), and elsewhere.
- Cascade is engaged in planning for the 2024 Northwest Flower and Garden Show.
   Cascade is the prime sponsor of next year's show. Cascade's participation will provide a strong emphasis on water efficiency and sustainable landscaping.
- Fifteen classroom presentations are scheduled for fall and more teachers are registering every week.
- Cascade participated in several community events across all member areas in spring and summer. Several more are scheduled for fall.
- The Water Wall is being refurbished and will include additional languages asking why we need water.
- Cascade created and published quite a bit of original content for its social media platforms emphasizing smart watering and sustainable landscaping.
- Cascade's PBL4WS (Sustainability Ambassadors) created and utilized a "Shrink Your Lawn" campaign this summer and is working with several Cascade members to align student and teacher learning objectives with local Climate Action Plans.

#### **Intergovernmental and Communications**

- Board members, alternates, and member staff have been asked to provide feedback on Cascade's intergovernmental, communications, and outreach programs and plans for 2024 through a member survey. Results will be incorporated into a draft Intergovernmental, Communications and Outreach Plan that will be reviewed by the Public Affairs Committee in October.
- Cascade staff are preparing for the next legislative session in January 2024, tracking many of the same issues from this year. Issues include PFAS, utility relocation costs, low-income utility assistance and other potential legislation or agency policy work that impact utilities and water rights. Staff are preparing a proposed 2024 Legislative Agenda for Public Affairs Committee review in October.

#### **Planning**

Cascade's consultant, Confluence, completed the Emergency Operations Response
Plan for the Bellevue-Issaquah Pipeline, which includes a detailed emergency flushing
plan. This document culminates over a year's worth of work by Bellevue, Sammamish
Plateau Water, Issaquah, and Cascade staff.

#### **Attachments**

- 1. Budget to Actual Expenditure Report through August 31, 2023.
- 2. Statement of Revenues and Expenditures through August 31, 2023.
- 3. Statement of Net Position as of August 31, 2023.
- 4. Contract Status Summary.
- 5. Monthly Warrants Listing.6. Monthly Treasurer's Report as of August 31, 2023.

# MEETING MINUTES OF THE BOARD OF DIRECTORS SPECIAL MEETING VIA HYBRID JULY 26, 2023

#### 1. CALL TO ORDER

At 3:01 p.m. Chair Sweet called the meeting to order. Board Members confirmed that they received the meeting materials and could hear the speakers clearly.

#### 2. ROLL CALL

<u>Board Members Present</u>: City of Bellevue (Barksdale), City of Kirkland (Sweet), City of Redmond (Birney), City of Tukwila (Ekberg), Sammamish Plateau Water & Sewer District (Warren), and Skyway Water and Sewer District (Ault)

Board Member Absent: City of Issaguah (Joe)

<u>Board Alternates Present</u>: City of Bellevue (Stokes), City of Issaquah (Reh), Sammamish Plateau Water & Sewer District (Hooshangi)

#### 3. PUBLIC COMMENT

Lake Tapps community member Jeff Lincoln expressed his appreciation with Cascade's management of the lake. In particular, he recognized Ray Hoffman, and Joe Mickelson for their professionalism in preserving the precious resource of the lake.

Lake Tapps community member Nancy Lien expressed her appreciation to Joe Mickelson for the recent tour of the complex operating system at Lake Tapps. On behalf of the community, she thanked Cascade for all that is done to preserve the lake.

#### 4. APPROVAL OF AGENDA

Motion by Ms. Birney and second by Mr. Ekberg to approve the meeting agenda as presented. Motion carried unanimously (6-0).

#### 5. CHIEF EXECUTIVE OFFICER'S REPORT

Chuck Clarke, Cascade Acting CEO, reviewed the Chief Executive Officer's Report that was included in the Board Packet. He also expressed his appreciation to the Lake Tapps community members that provided Public Comments.

#### 6. CONSENT ITEM

A. Board Meeting Minutes for May 24, 2023.

Motion by Mr. Ekberg and second by Ms. Birney to approve Consent Action Item A as presented. Motion carried unanimously (6-0).

#### 7. OTHER ACTION ITEMS

A. Motion to authorize the Chief Executive Officer to issue a Request for Proposal (RFP) for a consultant to develop a water quality management plan that identifies specific strategies and actions to protect the Lake Tapps Reservoir's water quality for future municipal use.

Melina Thung, Cascade Chief of Staff, said that results of the recently completed two-year water quality sampling and monitoring study by Cascade's consultant, Herrera, indicate that the Lake Tapps Reservoir is currently healthy with low levels of pollutants. Maintaining the Reservoir's water quality is critical to protect its resiliency and reliability as a future source of drinking water for Cascade's Members. Water quality is key to reducing the risks of shortening the life of the Reservoir, experiencing higher capital and operating costs for the future treatment plant, and experiencing operational problems at the treatment plant and supply disruptions.

Since the Reservoir will not be developed for municipal supply for many years, Ms. Thung reminded Board Members that on May 24, 2023 the Board approved Cascade's Drinking Water Quality Policy Framework. The Policy Framework provides Cascade staff with guidance on what potential water quality programs, projects, policies, and other activities should be considered prior to building out the Reservoir. This includes the timing of and investment amounts for water quality activities.

As its first proposed activity, Cascade staff recommends hiring a consultant to develop a water quality management plan that will identify the highest priority, most impactful, and most cost-effective strategies and actions to protect the Lake Tapps Reservoir's water quality for future municipal use – "Water Quality Management Plan" (WQMP). The WQMP is not intended to address non-water quality issues in the Reservoir such as strategies to improve recreational uses, boat management, fisheries and wildlife, or habitat.

Cascade staff evaluated the proposed WQMP via the Policy Framework and determined that it meets all Threshold Criteria and most of the Additional Criteria. One of the benefits of the WQMP is that it will take a holistic approach by prioritizing and sequencing a menu of potential actions to optimize water quality benefits in a cost-effective manner. This includes exploring Herrera's recommendations in their 2022 report. This approach is expected to result in better outcomes than the alternative of taking a piecemeal approach (e.g., presenting individual proposed actions over time for Board consideration and approval).

Ms. Thung said that if the Motion is adopted, Cascade staff will issue the RFP, negotiate the terms of a contract, and seek Board approval to contract with the selected firm. During the WQMP's development, Cascade staff will regularly check in with the consultant to ensure the Plan is meeting the scope, schedule, and budget. Staff will also provide updates on the WQMP's progress to the Resource Management Committee and the Board. If any of the consultant's recommendations involve parties external to Cascade, partnering with these entities will be important to successful implementation. Staff will consult with the Board prior to engaging with external parties. The completed WQMP will be presented to the Board for consideration and approval as a planning document. At that time, the Board may direct Cascade to seek future Board approval for any of the proposed actions before they are implemented.

Ms. Thung responded to questions from Board Members.

Motion by Mr. Warren and second by Ms. Birney to authorize the Chief Executive Officer to issue a Request for Proposal for a consultant to develop a water quality management plan that identifies specific strategies and actions to protect the Lake Tapps Reservoir's water quality for future municipal use. Motion carried unanimously (6-0)

#### 8. STAFF PRESENTATIONS

A. Sumner White River Restoration Project Update.

T.C. Richmond, Cascade General Counsel, shared recent information indicating that BNSF may be reconsidering the scope of its train track expansion project. If BNSF decides to change the scope or pull out of the project entirely, it could impact Sumner's Mitigation project, the real estate transactions, and the consideration that Cascade expects to receive as part of the agreements to transfer property. Staff will keep the Board and committees updated on the status of this issue.

B. Seattle and Tacoma Contract Negotiations Status Update.

Ed Cebron, Cascade Chief Economist/Treasurer, provided a status update on the Seattle and Tacoma contract negotiations. This is a complex issue. Staff will meet with Member staff to discuss the negotiations and impact in further detail.

Ms. Cebron responded to questions from Board Members.

#### 9. EXECUTIVE SESSION

At 4:12 p.m., Chair Sweet announced that there would be an Executive Session to discuss with legal counsel representing the agency matters relating to agency enforcement actions, or to discuss with legal counsel representing the agency litigation or potential litigation to which the agency, the governing body, or a member acting in an official capacity is, or is likely to become, a party, when public knowledge regarding the discussion is likely to result in an adverse legal or financial consequence to the agency. The Executive Session was expected to take 45 minutes.

At 5:00 p.m., the Executive Session adjourned.

#### 10. COMMITTEE REPORTS

- A. Executive Committee No Meetings Held.
- B. Finance & Management Committee Meeting held June 20, 2023 and July 18, 2023. Meeting recap included in the Board Packet.
- C. Public Affairs Committee No Meetings Held.
- D. Resource & Management Committee Meeting held July 13, 2023. Meeting recap included in the Board Packet.

#### 11. NEW BUSINESS

None.

#### 12. NEXT REGULAR MEETING

Chair Sweet announced that the August Board and Committee meetings are canceled. The next regular Board meeting will be held on September 27, 2023 at 3:30 p.m.

13. ADJOURN
The meeting adjourned at 5:00 p.m.
APPROVED BY:
Penny Sweet, Chair
Angela Birney, Vice-Chair

#### AGENDA MEMORANDUM

#### **SUBJECT**

Motion to authorize the Chief Executive Officer to execute a contract with Herrera Environmental Consultants, Inc. to develop a Water Quality Management Plan in an amount not-to-exceed \$165,000.

#### **BACKGROUND**

Results of the recently completed two-year water quality sampling and monitoring study indicate that the Lake Tapps Reservoir is currently healthy with low levels of pollutants. Maintaining the Reservoir's water quality is critical to protect its resiliency and reliability as a future source of drinking water for Cascade's Members. Water quality is key to reducing the risks of shortening the life of the Reservoir, experiencing higher capital and operating costs for the future treatment plant, and experiencing operational problems at the treatment plant and supply disruptions.

Since the Reservoir will not be developed for municipal supply for many years, on May 24, 2023 the Board approved Cascade's *Drinking Water Quality Policy Framework*. The *Policy Framework* provides Cascade staff with guidance on what potential water quality programs, projects, policies, and other activities should be considered prior to building out the Reservoir. This includes the timing of and investment amounts for water quality activities.

For its first proposed activity, Cascade staff recommended hiring a consultant to develop a water quality management plan that will identify the highest priority, most impactful, and most cost-effective strategies and actions to protect the Lake Tapps Reservoir's water quality for future municipal use – "Water Quality Management Plan" (WQMP). The WQMP is not intended to address non-water quality issues in the Reservoir such as strategies to improve recreational uses, boat management, fisheries and wildlife, or habitat.

At its July meeting, the Board approved Cascade issuing a request for proposals (RFP) to hire a consultant to develop the WQMP. Cascade has since completed the solicitation process and is ready to execute a contract with Herrera Environmental Consultants, Inc. (Herrera).

Once the contract is signed and the WQMP is under development, Cascade staff will regularly check in with the consultant to ensure the Plan is meeting scope, schedule, and budget. Staff will also provide updates on the WQMP's progress to the Resource Management Committee and the Board. If any of the consultant's recommendations involve parties external to Cascade, partnering with these entities will be important to successful implementation. Staff will consult with the Board prior to engaging with external parties. In addition, the Board-approved *Policy Framework* will be applied to each of the consultant's recommendations to ensure they meet Cascade's criteria. The completed WQMP will be presented to the Board for consideration and approval as a planning document. At that time, the Board may direct Cascade to seek future Board approval for any of the proposed actions before they are implemented.

#### **PROCUREMENT PROCESS**

An RFP was issued on July 31, 2023 to five firms from the MRSC roster. The deadline for proposals was August 18, and Cascade received two proposals. Based on the criteria outlined in the RFP, the evaluation committee determined that Herrera was the highest rated firm.

#### **FISCAL IMPACT**

The estimated cost of the WQMP is \$150,000, plus a contingency of \$15,000 for a total amount of \$165,000, spread between 2023 and 2024.

Budget Line	2023 Operations Budget	Spent and Committed to Date	Available 2023 Budget	This Action	2023 Remaining Balance
WQ Management Plan	\$100,000	\$0	\$100,000	\$50,000	\$50,000
Budget Line	2024 Operations Budget	Spent and Committed to Date	Available 2024 Budget	This Action	2024 Remaining Balance
WQ Management Plan	\$150,000	\$0	\$150,000	\$115,000	\$35,000

#### **OPTIONS**

- 1. Authorize the Chief Executive Officer to execute a contract with Herrera Environmental Consultants, Inc. to develop a Water Quality Management Plan in an amount not-to-exceed \$165,000.
- 2. Do not authorize the Chief Executive Officer to execute a contract with Herrera Environmental Consultants, Inc. and provide alternate direction to staff.

#### RECOMMENDATION

Authorize the Chief Executive Officer to execute a contract with Herrera Environmental Consultants, Inc. to develop a Water Quality Management Plan in an amount not-to-exceed \$165,000.

#### **ATTACHMENTS**

None

#### **AGENDA MEMORANDUM**

#### **SUBJECT**

Motion to adopt Resolution No. 2023-12 authorizing Cascade's Acting Chief Executive Officer to continue activation of the Cascade Shortage Management Plan at the Voluntary stage of curtailment, to take additional action, in consultation with the Water Shortage Management Committee, pursuant to the Cascade Shortage Management Plan, and to report on such action at the next Board meeting following such action.

#### **BACKGROUND**

In Resolution 2016-18, the Cascade Board adopted the revised Cascade Water Alliance Shortage Management Plan ("Cascade SMP") which is now Appendix A of the 2019 Transmission and Supply Plan ("TSP") Extension.

Seattle Public Utilities ("SPU") supplies Cascade with water supply under the 2013 2nd Amended and Restated Declining Block Water Supply Agreement Between the City of Seattle and The Cascade Water Alliance ("Block Contract"). Both the TSP and the Cascade SMP address coordination with SPU during water shortages. The Cascade SMP provides in part: "When SPU activates its Water Shortage Contingency Plan, the Cascade CEO may activate the SMP and determine the appropriate stage of curtailment, and at its next meeting, the Cascade Board will take action to end or continue activation at the appropriate stage of curtailment."

The four water shortage stages of the Cascade SMP are:

- 1. Advisory Stage: In this stage, Cascade would not require curtailment actions by water users; rather the public is informed as early as meaningful data are available that a water shortage may occur.
- 2. Voluntary Stage: In this stage, Cascade would rely on voluntary cooperation and support of customers to meet suggested target consumption goals.
- 3. Mandatory Stage: In this stage, Cascade would prohibit or limit certain water actions and Cascade would rely upon members to enforce.
- 4. Emergency Stage: This stage would occur in severe drought in recognition that a critical water situation exists and that without additional significant curtailment actions a shortage of water for public health and safety is imminent.

On September 8, SPU activated the Advisory (planning only) stage of its Water Shortage Contingency Plan. On September 21, 2023, SPU moved to the second level, or Voluntary stage, of curtailment. Neither the Block Contract nor the Cascade SMP requires Cascade to activate the Cascade SMP or to take action based on SPU's actions. However, declining to take similar action may promote confusion within the region and erode Cascade's and SPU's partnership.

On September 21, 2023, Cascade's Acting Chief Executive Officer ("CEO") activated the Cascade SMP at the Voluntary stage of curtailment. Pursuant to the SMP, the Acting CEO also designated a Water Shortage Management Committee consisting of Cascade staff and Member

staff to advise the Acting Cascade CEO on implementation of the SMP for the duration of the water shortage.

#### **FISCAL IMPACT**

SPU will credit or otherwise reduce Cascade's payments under the Block Contract based on actual savings achieved during the water shortage.

#### **OPTIONS**

- Adopt Resolution No. 2023-12 authorizing Cascade's Acting Chief Executive Officer to continue activation of the Cascade Shortage Management Plan at the Voluntary stage of curtailment, to take additional action, in consultation with the Water Shortage Management Committee, pursuant to the Cascade Shortage Management Plan, and to report on such action at the next Board meeting following such action.
- 2. Do not adopt Resolution No. 2023-12, and provide alternate direction to staff.

#### **RECOMMENDED ACTIONS**

Adopt Resolution No. 2023-12 authorizing Cascade's Acting Chief Executive Officer to continue activation of the Cascade Shortage Management Plan at the Voluntary stage of curtailment, to take additional action, in consultation with the Water Shortage Management Committee, pursuant to the Cascade Shortage Management Plan, and to report on such action at the next Board meeting following such action.

#### <u>ATTACHMENT</u>

1. Proposed Resolution No. 2023-12.

A RESOLUTION OF THE BOARD OF DIRECTORS OF THE CASCADE WATER ALLIANCE,
A WASHINGTON MUNICIPAL CORPORATION
AUTHORIZING CONTINUED ACTIVATION OF CASCADE'S SHORTAGE MANAGEMENT PLAN
AND ACTION BY THE ACTING CHIEF EXECUTIVE OFFICER

WHEREAS, the Cascade Water Alliance ("Cascade") is a Washington municipal corporation formed under authority of the Joint Municipal Utilities Authority Act (Chapter 39.106 RCW) to provide water supply to its Members; and

WHEREAS, by Resolution 2016-18, the Cascade Board of Directors ("Board') adopted the revised Cascade Water Alliance Shortage Management Plan ("Cascade SMP"), now Appendix A of the 2019 Transmission Supply Plan, which provides in part: "When SPU activates its Water Shortage Contingency Plan, the Cascade CEO may activate the SMP and determine the appropriate stage of curtailment, and at its next meeting, the Cascade Board will take action to end or continue activation at the appropriate stage of curtailment"; and

WHEREAS, Seattle Public Utilities (SPU) supplies Cascade with water supply under the 2013 2nd Amended and Restated Declining Block Water Supply Agreement Between The City of Seattle and The Cascade Water Alliance ("Block Contract"). On September 8, 2023 SPU activated the first stage ("Advisory") of its Water Shortage Contingency Plan, and on September 21, 2023 SPU moved to the second stage ("Voluntary") of curtailment; and

WHEREAS, on September 21, 2023 Cascade's Acting Chief Executive Officer ("CEO") activated the Cascade SMP at the Voluntary stage of curtailment and designated a Water Shortage Management Committee consisting of Cascade staff and Member staff to advise the Acting Cascade CEO on implementation of the SMP; and

WHEREAS, the Board wishes to continue activation of the Cascade SMP at the Voluntary stage of curtailment and to authorize the Acting Cascade CEO to take additional action as needed, pursuant to the Cascade SMP.

NOW THEREFORE BE IT RESOLVED BY THE BOARD OF DIRECTORS OF CASCADE WATER ALLIANCE as follows:

#### Section 1. Continued Activation of the SMP

Pursuant to the Cascade SMP, the Board authorizes the Acting Cascade CEO to continue activation of the Cascade SMP at the Voluntary stage of curtailment and to take additional action, in consultation with the Water Shortage Management Committee, pursuant to the Cascade SMP. Unless otherwise directed by the Cascade Board, the Acting Cascade CEO, in consultation with the Water Shortage Management Committee, may elevate or diminish the stage of curtailment from one stage or another as appropriate. The Acting Cascade CEO will report on any additional actions taken pursuant to the Cascade SMP at the next Board meeting following such actions.

#### Section 2. Effect

This Resolution shall be in full force and effect on the date of its adoption.

ADOPTED AND APPROVED by the Board of Directors of the Cascade Water Alliance at a meeting thereof, held the 27th day of September, 2023.

## Meeting RECAP Tuesday, September 19, 2023 1:30 PM – 3:00 PM Held at Cascade's office and via Zoom

#### Call to Order

- 1. Chair Comments.
- 2. Executive Session.
- 3. Items Recommended for Action at the September 27, 2023, Board Meeting.
- 4. Discussion Items.
  - **A. Contract Negotiations Update.** Cascade held two "deep-dive" sessions for member staff and Board members/alternates interested in learning more about the Seattle and Tacoma contract options. Staff will update the committee on the sessions and the status of the contract discussions.

**Recap:** Staff updated the committee on the three-hour "deep dive" sessions regarding the details of the current proposals. The sessions explored three options: 1) Seattle's proposal for a 10-year extension; 2) Cascade's counterproposal to Seattle for a 20-year extension; and 3) Tacoma's proposal for a 20-year contract.

In between the two deep-dive sessions, the WestRock pulp mill in Tacoma announced it would be closing on September 30, 2023. Cascade and Tacoma met to discuss whether the mill closure could further improve Tacoma's proposal. As a result, Tacoma is developing another proposal for Cascade to consider, which may be a 25 to 30 year contract. Meanwhile, Seattle responded to Cascade's counteroffer of a 20-year extension by offering to gradually ramp up payments (which generates less than \$3M worth of additional savings) but sticking with a 10-year extension. In Cascade and Seattle's most recent meeting, Seattle showed interest in a markedly different option -- having Cascade return as a wholesale customer with a 40-year contract. Cascade is awaiting a formal written communication from Seattle to see the terms and economics of the new proposal.

**B. 2024 Member Charge Reconciliation.** With Board adoption of two years of member charges concurrent with the biennial budget, the second year of charges is based on estimates. It is subject to reconciliation and true-up once all necessary data are available. The attached memorandum provides a draft reconciliation for review and comment. In

addition, this year's process has also reflected modification to past year demands based on revised allocations of demands between Redmond and Bellevue. The attached worksheet summarizes the demand revisions and resulting revisions in current and prior rate calculations. Only Redmond and Bellevue are affected by these additional revisions. At the request of Bellevue and Redmond, Cascade has agreed to integrate the results into this year's reconciliation process and corresponding true-ups to be applicable in 2025. Cascade staff will review and discuss the results and how this is taken forward as part of next year's budget process.

**Recap:** Cascade staff walked the committee through the reconciliation memo and tables. This year's process was more complicated than is typical, and member staff were extremely helpful throughout. The committee requested that page numbers be added to the tables document and the document resent.

C. Seattle Public Utilities' (SPU) Water Supply Conditions. SPU has informed Cascade that despite warmer temperatures and drier-than-normal conditions, Seattle's regional water supply was sufficient for people and fish this summer. However, as fall approaches, there's concern over supply conditions because of forecasts for continuing dry weather and a possible delay in the return of fall rains. Staff will provide the committee with its discussions with SPU.

**Recap:** Staff shared with the committee that, on September 8, SPU activated its Advisory, or planning only, stage of its <u>Water Shortage Contingency Plan</u> (WSCP). SPU very recently informed Cascade that it will move to the Voluntary Curtailment stage on September 21. This decision was made because updated forecasts continue to show significant concern for the supply situation. If Cascade's Acting CEO activates its <u>Shortage Management Plan</u> (SMP) at the Voluntary stage, members must also activate their plans. For members, this means they will be encouraged to take supply-side actions and communicate curtailment messages to their customers. SPU has developed communication materials for members' use. Activation of Cascade's SMP also requires Board action at its next meeting.

#### 5. Other Issues.

**6. Next Meeting Date and Location.** The next meeting will be held Tuesday, October 17, 2023, 1:30 p.m. at Cascade's office and via Zoom meeting.

#### PUBLIC AFFAIRS COMMITTEE

Angela Birney, Chair, City of Redmond Penny Sweet, City of Kirkland Ryika Hooshangi, Sammamish Plateau Water Russell Joe, City of Issaquah

### Meeting RECAP Wednesday, September 6, 2023 9:00 AM – 10:00 AM Held at Cascade's Office and via Zoom

- 1. Chair Comments.
- 2. Executive Session.
- 3. Items Recommended for Action at the September 27, 2023 Board Meeting.
- 4. Discussion Items.
  - **A.** Legislative Update and Priorities. Staff will provide an update on legislative activities and preparation for the 2024 legislative session. This item is an opportunity for the committee to discuss legislative priorities for 2024. Cascade's 2023 Legislative and Public Policy Agenda is attached for reference.

**Recap:** Diana Carlen, Gordon Thomas Honeywell, updated the committee on state activities, and the committee discussed several legislative priorities to consider including in the 2024 Legislative Agenda. High priority issues for 2024 include PFAS, low-income household utility assistance programs and utility relocation costs due to transportation projects. A draft 2024 legislative agenda will be provided to the committee in October.

**B.** Annual Member Survey. Each year Cascade surveys Board members and alternates seeking input on the evaluation of Cascade's intergovernmental, communications and outreach programs and planning for the next year.

**Recap:** Staff updated the committee on the draft 2023 - 2024 survey. The survey will be sent out to Board members, alternates and one staff person from each member. Results will inform the development of the communications and outreach plan for 2024.

C. Contract Negotiations Update. Cascade held two "deep-dive" sessions for member staff and Board members/alternates interested in learning more about the Seattle and Tacoma contract options. Staff will update the committee on the sessions and the status of the contract discussions.

**Recap**: Staff updated the committee on the three-hour "deep dive" sessions to delve into the details of the current proposals. The sessions explored three options: 1) Seattle's proposal for a 10-year extension; 2) Cascade's counterproposal to Seattle for a 20-year extension; and 3) Tacoma's proposal for a 20-year contract.

In between the two deep-dive sessions, the WestRock pulp mill in Tacoma announced it would be closing on September 30, 2023. Cascade and Tacoma are meeting in mid-

September to discuss whether the mill closure could further improve Tacoma's proposal. Meanwhile, Seattle responded to Cascade's counteroffer of a 20-year extension by offering to gradually ramp up payments (which generates less than \$3M worth of additional savings) but sticking with a 10-year extension. In Cascade and Seattle's most recent meeting, Seattle showed interest in a markedly different option -- having Cascade return as a wholesale customer with a 40-year contract. Cascade is awaiting a formal written communication from Seattle to see the terms and economics of the new proposal.

D. Water Efficiency Savings Goal Update. Cascade's water efficiency goal was incorporated into Cascade's Transmission and Supply Plan (TSP) in 2018. Cascade's current state-mandated water efficiency savings goal will expire at the end of 2024 (along with the current TSP), thus Cascade needs to develop a new savings goal. Cascade will be engaging with member staff in the coming months to develop options for inclusion in the TSP.

**Recap:** Staff updated the committee on the plans to begin working with member staff to develop potential water efficiency savings goal options for committee and board members. Cascade staff will engage with member staff next month with a target of having savings options for review next spring.

#### 5. Other Issues.

**6. Next Meeting Date and Location.** The next meeting will be Wednesday, October 4, 2023, from 9:00 a.m. – 10:00 a.m. at Cascade's office and via Zoom meeting.

#### RESOURCE MANAGEMENT COMMITTEE
