WEBINARS

Assisted Migration in the Garden: Adapting to Shifting Plant Hardiness Zones *with Jessi Bloom*

Thursday, April 9, 7–8:30 p.m.

Learn about planting species outside their historical ranges to adapt to changing climate. Get insight and tools to rethink your plants and design thoughtful gardens for the future.

Virtual Garden Tours: Edible and Ecological Landscapes of the U.S. *with Mary Marshall & Andrew Tuttle*

Wednesday, April 15, 7–8:30 p.m.

Learn about edible landscapes and regenerative farms through guided virtual tours. Find fresh ideas and inspiration for your own gardens and design projects.

Futurescaping: Ancient Wisdom Meets Tomorrow's Gardens *with Erica Browne Grivas*

Wednesday, April 22, 7–8:30 p.m.

Learn about the next wave of gardening, where time-tested traditions meet cutting-edge innovations. Get ideas to support biodiversity for a garden that thrives in a changing world.
